KI 6680 Series – Mini Fiber Inspection Probe

The KI 6680 Mini Fiber Inspection Probe, with support of its imaging apps, makes a useful tool for inspecting fiber optic connectors for dirt condition or quality, and offers improved overall performance and features.

The imaging software, KI6680 Scope Viewer for Android devices, features IEC61300-3-35 compliant pass/fail analysis with the resultant image/data/report saved automatically with just a push of a button. Whereas with the imaging apps for Window, high-quality images can be viewed and stored via a WiFi or a USB connection. These imaging apps can be downloaded from Kingfisher's website or Google Play for free.

This simple tool features easy and precise focusing, and its image self-centering design enable users to swap adaptors quickly and easily.

Standard adaptors include, 1.25mm Male, 2.5mm Male, FC

Female, SC Female, LC Female. MPO and many more adaptor types are available as options to suit your specific needs. The adaptors can be stored, organized, and kept clean in the dust-tight storage case that comes with the probe.

The physical button on the probe allows user to capture image and/or start pass/fail analysis conveniently without having the need to release one hand to reach the relevant touch pad on PC or smart device.

The wrist strap with a captive dust cap provides protections to the adaptor and adaptor head against damage from dropping the probe.

The probe features an illumination LED that can be switched on to assist work under dark or low light conditions.
